SIR,

I have the honour to forward herewith for the orders of Government the marginally noted papers relating to the conclusion of the settlement of the Maisavi Block in the Shimoga District received from the Forest Settlement Officer with his letter No. 228 dated 28th January 1913.

(1) Letter No. 105 dated 26th September 1912 from the Forest Settlement Officer.
(2) Draft boundary notification.

(5) Topo tracing.
(6) Map.
(7) One appeal record.
(8) Letter No. 228 dated 28th January 1913 from the Forest Settlement Officer.

2. The Block under reference is situated between the Taluks of Sagar and Shikarpur and covers, as settled, an area of -- 2958 acres 20 guntas or 4.62 square miles. It consists of assessed waste, kharab and gomal lands as detailed in the margin and they belong to seven villages.

| (1) assessed waste | 29 | 8 |
| (2) kharab | 270 | 0 |
| (3) gomal | 2659 | 18 |

3. Fourteen claims were preferred before the Forest

14

Forest Settlement Officer during the course of the settlement and all but three were admitted by him. In one of the cases which related to the exclusion from the Reserve of certain lands of the Bilisiri village there was an appeal to the Deputy Commissioner against the decision of the Forest Settlement Officer and the records connected therewith together with the order of the Deputy Commissioner are enclosed for reference and return when no longer required.

4. The Deputy Commissioner who is agreeable generally to the reservation in question remarks that more liberal provision is necessary as regards the supply of fuel for domestic consumption and timber for agricultural implements and that the demarcation line is close to assessed lands in some places. The reasonable needs of the villagers should be met and the line shifted so that there might be the prescribed margin of five chains everywhere.

5. With these observations, I agree to the issue of the final notification.

I have the honour to be,

Sir,

Your most obedient servant,

Revenue Commissioner.

BANGALORE.

Sir,

In returning herewith the papers relating to the settlement of the Maisavi Block in the Shimoga District, -- received with your letter No. R. 3898/ Ft 86-13-2 dated the 25th November 1913, I have the honour to state as follows:-

2. The total area at the disposal of Government in the villages affected by the reservation is 18 Square Miles, of which only 4.62 Square Miles have been taken up for the State Forest leaving 13.3 Square Miles for village use. All the claims urged by the villagers have been granted. In the case of Mulkere village, large concessions have been ---- granted in the State Forest . To my mind, the award of the Forest Settlement Officer has erred on the side of extreme generosity- Such being the case, I am at a loss to understand the force of the Revenue Commissioner's contention that " more liberal provision is necessary as regards the -- supply of fuel and timber ". The villagers themselves are

11

(10

content with the provisions made and have not asked for more.

3. As regards the last sentence of para 4 of the Revenue Commissioner's letter, I have to state that the line will be shifted 5 chains from the edge of the culti-vation as ~~regards~~ required under para 4 of Government Order No. R 1294-303/ 43-1 dated 18th August 1904 when the permanent demarcation line is laid out.

4. The enclosures received with the above are here-with returned.

I have the honour to be,

ACCOMPANIMENT No. I.

*Letter No. 6390-8, dated Bangalore, 14th November 1913, from K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.*

I have the honour to forward herewith for the orders of Government the marginally noted papers relating to the conclusion of the settlement of the Maisavi Block in the Shimoga District received from the Forest Settlement Officer with his letter No. 228, dated 28th January 1913.

*(1) Letter No. 105, dated 26th September 1912, from the Forest Settlement Officer.
(2) Draft boundary notification.
(3) "B" Register.
(4) "C" Register.
(5) Topo tracing.
(6) Map.
(7) One appeal record.
(8) Letter No. 228, dated 28th January 1913, from the Forest Settlement Officer.

2. The block under reference is situated between the taluks of Sagar and Shikarpur, and covers, as settled, an area of 2,958 acres 20 guntas or 4·62 square miles. It consists of assessed waste, kharab and gomal lands as detailed in the margin and they belong to seven villages.

| | | A. | g. |
|---|---|---|---|
| (1) Assessed waste | ... | 29 | 8 |
| (2) Kharab | ... | 270 | 0 |
| (3) Gomal | ... | 2,659 | 18 |
| Total | ... | 2,958 | 26 |

3. Fourteen claims were preferred before the Forest Settlement Officer during the course of the settlement and all but three were admitted by him. In one of the cases which related to the exclusion from the reserve of certain lands of the Bilisiri village, there was an appeal to the Deputy Commissioner against the decision of the Forest Settlement Officer, and the records connected therewith together with the order of the Deputy Commissioner are enclosed for reference and return when no longer required.

4. The Deputy Commissioner who is agreeable generally to the reservation in question remarks that more liberal provision is necessary as regards the supply of fuel for domestic consumption and timber for agricultural implements and that the demarcation line is close to assessed lands in some places. The reasonable needs of the villagers should be met and the line shifted so that there might be the prescribed margin of five chains everywhere.

5. With these observations, I agree to the issue of the final notification.

The forest is too rich to be given over to the raiyats and contains many valuable species as Jambe Hunal, Beete, etc. A margin of 5 chains around the cultivated area may be left. | Halavagode is a bechirak village. The lands remaining after deducting the area proposed for the forest (Maisavi Block) is quite adquate for the requirements of the raiyats of the adjoining villages who cultivate the lands of this village. In view of future expansion of cultivation, I would leave a margin around the cultivated fields. I would accordingly decide that an enclosure be formed within the reserve as described below. It is now proposed to include 140 acres of this village within the reserve in question. The village is hemmed in on the north and south sides by forest and there is hardly any land remaining for the raiyats for grazing and other communal purposes. ACCOMPANIMENT No. II.

*Letter No. 9515, dated Bangalore, 13th March 1914, from Rajakarya Prasakta Rai Bahadur M. Muthannah, Esq., Conservator of Forests in Mysore, Bangalore, to K. R. Srinivasaiengar, Esq., M. A., Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments, Bangalore.*

In returning herewith the papers relating to the settlement of the Maisavi Block in the Shimoga District, received with your letter No. R. 3898—Ft. 86-13-2, dated the 25th November 1913, I have the honour to state as follows:—

2. The total area at the disposal of Government in the villages affected by the reservation is 19 square miles, of which only 4·62 square miles have been taken up for the State Forest leaving 12·3 square miles for village use. All the claims urged by the villagers have been granted. In the case of Mulkere village, large concession have been granted in the State Forest. To my mind, the award of the Forest Settlement Officer has erred on the side of extreme generosity, such being the case, I am at a loss to understand the force of the Revenue Commissioner's contention that " more liberal provision is necessary as regards the supply of fuel and timber." The villagers themselves are content with the provisions made and have not asked for more.

3. As regards the last sentence of para 4 of the Revenue Commissioner's letter, I have to state that the line will be shifted 5 chains from the edge of the cultivation as required under para 4 of Government Order No. R. 1294-303-43-1, dated 15th August 1904, when the permanent demarcation line is laid out.

4. The enclosures received with the above are herewith returned.
